

Simpson Hybrid Recert Form

SFI 38.1 Head and Neck Restraints must be recertified every five (5) years to maintain SFI Certification. For example, if your device was certified in Januari 2014, it will require recertification by February 1, 2019.

Devices passing the inspection will receive a new SFI 38.1 Certification Tag marked with the inspection date that will remain valid for five (5) years.

Devices with FIA Certification will get a new Certification Tag when sent in for complete overhaul (Level 4).

See below for the cost of this service and instructions for recertification. Return shipment is not included, Level 4 require shipping to factory, cost for that shipping is not included.
